 - Proactive in offering help to others
 - Active listening and problem-solving
 - Effective time management and task prioritization
-

Projects

Movie App (React - MERN Stack)

- Built a full-stack movie application to fetch and display movie data.
- Constructed a React application integrated with Node.js, Express, and MongoDB.
- Implemented search, filter, and detailed movie information views.
- Managed state efficiently for a seamless user experience.
- Launched a responsive and user-friendly movie app, demonstrating proficiency in the MERN stack.

Pokédex App (HTML, CSS, JavaScript)

- Created an interactive and user-friendly web application to display Pokémon information.

- Allows users to search for Pokémon and view detailed information via clickable modals.
- Integrated a third-party Pokémon API to fetch and display data dynamically.

Movie App (Angular - MEAN Stack)

- Developed an Angular version of the movie application.
- Created an Angular application using Node.js, Express, and MongoDB.
- Integrated Angular services and modules for data management.
- Enhanced UI with Angular Material components.
- Produced a polished and efficient application, showcasing versatility in using different frameworks.

Meet App (PWA, AWS Lambda, Google Calendar API)

- Designed an event application with real-time capabilities via React.
- Developed a PWA using AWS Lambda for serverless backend and Google Calendar API.
- Implemented Charts & Graphs from the API and added Test Driven Development (TDD).
- Delivered a highly accessible and performant application, demonstrating skills in PWA development and cloud services.

Chat App (React Native, Expo, FirestoreDB, FirebaseAuth + Cloud, Gifted Chat library)

- Created a mobile chat application with real-time messaging capabilities.
- Built a real-time chat application using React Native and Expo.
- Implemented Firebase Authentication for user login and FirestoreDB for data storage.
- Enabled industry standard features such as tap & hold to delete or copy messages utilizing Gifted Chat library.
- Launched a feature-rich and reliable chat app, highlighting strong mobile development and backend integration skills.

Professional Experience

Mortgage Industry

Various Roles

December 2009 – Current

- Leveraged exceptional customer service and innovative problem-solving to originate residential mortgage loans, demonstrating strong client relationship management.
- Pre-underwrote buyers, efficiently meeting deadlines, showcasing attention to detail and time management.
- Developed and executed marketing campaigns to increase lead volume and expand partner relationships, illustrating creativity, strategic thinking, and the ability to drive results.
- Collaborated with local branch clients, utilizing strong communication and teamwork skills to effectively originate residential mortgage loans.
- Identified and capitalized on opportunities in financial centers by coaching relationship managers, conducting follow-up activities, and making outbound calls, emphasizing leadership, mentoring, and proactive engagement.

Education

Full Stack Web Development Certificate

CareerFoundry, 2024
